My Publications: Citation Metrics

The Citation Metrics feature requires one or more publications on your "My Publications." To add publications, click the **Add** link located in the menu on the left-hand side of your screen.

You have the ability to make your "My Publications" Citation Metrics public to visitors of ResearcherID for promotion of your scholarly output. Click on the **Manage Profile** button at the top-right corner of the page to change the public and private settings of your data.

Publications added from the *Web of Science Core Collection** will allow you to generate Citation Metrics for your publication list just like the following example:

* Note: Access to the *Web of Science Core Collection* is based on the entitlements of the computer where you are accessing ResearcherID.
