Research Funding

1999-2000	<i>Developing the Bulgarian edition of the resource book "Our Bodies, Ourselves"</i> Open Society Institute, Hungary: Program for Publishing and Development, "Women at Risk" PI ; The goals were to translate, adapt, edit and collect information about local resources for women's health. The Bulgarian edition of the book was published in 2001.
2000-2001	<i>Women's Experiences of Infertility in Bulgaria</i> Society for the Psychological Study of Social Issues, US, research grant. PI

The goals were to research contextualized experiences of infertility and infertility treatment for women in Bulgaria, through in-depth interviews and interpretative phenomenological analysis. Studied meanings and the resistance to stigmatization and blame in women's narratives of living with involuntary childlessness.

- 2001 *Developing the Bulgarian edition of the resource book "Our Bodies, Ourselves"*
The Global Fund for Women, US. PI
The goals were to translate, adapt, edit and collect information about local resources for women's health. The Bulgarian edition of the book was published in 2001.
- 2001-2002 *Projecting the Voices of Immigrant Children*
Radcliffe Institute for Advance Study, Harvard University, Cambridge, MA. Postdoctoral Research Grant for the Diversity Archives, PI
The goal of this research was to gain an understanding of the way in which immigrant children conceptualize achievement and how they attribute success and failure in their unfamiliar surroundings. In a combination of current and archival data, we applied a unified methodology to the analysis of narratives of Mexican-origin children.
- 2003 *Community Outreach with the Bulgarian edition of 'Our Bodies, Ourselves'*
The Global Fund for Women, US, grant for community health promotion. PI
The goal of the project was to develop educational materials and conduct seminars among low-resource women in different parts of Bulgaria
- 2004-2006 *Psychosocial determinants of cervical cancer screening in Bulgaria and Romania*
EngenderHealth through the Bill and Melinda Gates Foundation, US, research grant. PI
The goal of the study was to assess women's attitudes, risk perception and perceived barriers to cervical cancer screening; as well as institutional pathways and barriers
- 2005-2008 *Health and Behavior in School Aged Children (HBSC): An international WHO affiliated study.*
Fund for Scientific Investigations – Ministry of Education and Science, Bulgaria, research grant. PI
The goals of the study are to assess and identify determinants of health, well-being, social environment, health behavior and health inequalities of 11-, 13- and 15-year-old boys and girls over time. It is being conducted in parallel (independently funded) in 40 countries.

2014-present *Vital Outcomes Informed by Caregiver Engagement: VOICE*
Seniorlink/Caregiver homes, research and evaluation grant.
Co-I (PI Carmen Sceppa)
This project examines issues related to the engagement of family caregivers of people with dementia living in the community. We are conducting a mixed-methods needs assessment to make recommendations for enhancing dementia care knowledge and skills of care managers and nurses employed by CGH. Through this intervention, we aim to ultimately improve caregiver engagement and client acute care utilization.

Current Unfunded Projects

2015-2017 *Women's Experiences of Assisted Reproductive Technologies (ART) and Egg Donation;* PI
The goals are to research contextualized experiences of ART treatment for women in Bulgaria, through in-depth interviews and on-line forum discussion analyses. We are studying medical and social discourses of these technologies, as well as the constructions of responsibility, family, genetics and parenthood.
